

OCTO PENDANT

Linear System

design Roberto Mantovani

A 24VDC multifunctional modular system for suspension installation. The combination of linear elements and various joints permits the creation of complex geometries meaning that, thanks to the available light modules, it can meet any illumination need. These linear modules can be equipped with elements for indirect light.

Sistema multifunzionale componibile a 24VDC per installazione a sospensione. Combinando elementi lineari e vari giunti permette la realizzazione di geometrie complesse, e grazie ai moduli luminosi disponibili può rispondere a qualsiasi necessità luminosa. I moduli lineari possono essere equipaggiati con elementi per luce indiretta.

Système multifonction modulaire en 24VDC pour installation en suspension. Combinant des éléments linéaires et diverses jonctions, il permet de réaliser des géométries complexes et, grâce aux modules lumineux disponibles, il peut répondre à toute exigence lumineuse. Les modules linéaires peuvent être équipés d'éléments pour éclairage indirect.

IP20 CE made in Italy

Multifunktionales, modulares 24VDC-System für die hängende Installation. Die Kombination von linearen Elementen und verschiedenen Verbindungen ermöglicht die Realisierung komplexer Geometrien und kann dank der verfügbaren Lichtmodule auf jeden Lichtbedarf reagieren. Die linearen Module können mit indirekten Beleuchtungselementen ausgestattet werden.

Sistema modular multifuncional de 24VDC para la instalación de suspensión. La combinación de los elementos lineales y las diferentes juntas permite la realización de geometrías complejas y, gracias a los módulos luminosos disponibles, puede responder a cualquier necesidad de iluminación. Los módulos lineales pueden ser equipados con elementos de iluminación indirecta.

Power supply
24VDC

Max current
15A

Straight module 1002 mm
